

# JTHOOPITUP

## Janome / Deco HOOP-A (125x110) USER's GUIDE

### For Single Needle Machines

- This JTHOOPITUP is specifically designed to be compatible with a Janome / Deco 125x110 HOOP-A.
- PLEASE REFER to the Instructional Videos on the JTHOOPITUP Facebook page. These videos provide information on the proper use of the JTHOOPITUP as well as hooping tips.
- The intended use of this JTHOOPITUP is to provide a hands free, open embroidery field.
- **Make Sure that you insert the JTHOOPITUP with the “Head” of the JTHOOPITUP Toward you (at the bottom of your hoop). Your garment and design will be rotated while embroidering.**
- **Note that the JTHOOPITUP will sit OUTSIDE of your embroidery frame.**
- Pay close attention while stitching at the corners of your design to ensure there will be no contact with your machine and the JTHOOPITUP.
- JTHOOPITUP is not responsible for improper use.
- Do Not leave your machine unattended while embroidering
- We are here to help! If you have questions, please PM us on our Facebook Page.
