JTHOOPITUP Bernina 100x130 USER's GUIDE

For Single Needle Machines

- This JTHOOPITUP is specifically designed to be compatible with a Bernina 100x130 standard RECTANGULAR hoop.
  - **It is not compatible with the Race Track (oval) Hoops.**
- PLEASE REFER to the Instructional Videos on the JTHOOPITUP Facebook page. These videos provide information on the proper use of the JTHOOPITUP as well as hooping tips.
- The intended use of this JTHOOPITUP is for embroidering on Onsies and small children's garments.   It is recommended that you start with a small design to become familiar with how to use the JTHOOPITUP before progressing to larger designs.
- The recommended maximum "design size" is 4x4.
- Pay close attention while stitching at the corners of your design to ensure there will be no contact with your machine and the JTHOOPITUP. You can temporarily move the JTHOOPITUP up onto your hoop in close situations. Then, put the JTHOOPITUP back into position after you have sewn the area where it is close.
- JTHOOPITUP is not responsible for improper use.
- Do Not leave your machine unattended while embroidering
- We are here to help! If you have questions, please PM us on our Facebook Page.
